

APTIVA THERAPY

The Art and Science of Therapy

“A therapy company founded by therapists, for therapists, to focus on one thing – great therapy”

Providing Physical Therapists, Occupational Therapists
and Speech Language Pathologists

Aptiva (pronounced ap-tee-va) Therapy is a therapy company focused on one thing – great therapy.

"The Art and Science of Therapy" reflects our view that great care requires discernment, insights and instincts garnered through years of clinical success (the "Art") as well as extensive knowledge of clinical elements of anatomy, physiology and kinesiology (the "Science"). Together, these skills allow us to create the best possible outcomes in the shortest time span with the least physical discomfort for our patients.

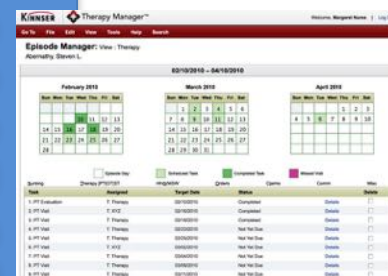

If you are a home health agency, senior living facility, or hospital home therapy group, we can add flexibility while delivering excellent care.

Episode Management

We understand the importance of episode management, excellent and timely documentation, and a high degree of communication between physicians, nurses and the therapy team. Working together as clinical partners, we help you optimize patient care while effectively controlling costs. That focus on value – excellent care at a competitive rate – helps you to achieve your patient care and business objectives.

Record Keeping & Administration

Record keeping is a challenging aspect of healthcare, and we work hard to leverage technology to provide you with simple and convenient means to refer patients, manage cases and submit documentation for reimbursement. We utilize a proprietary HIPAA-compliant, web-based referral management platform and provide you with the notes and credentials you need for audit and other record keeping purposes. Excellence in administrative processes is essential for success in today's healthcare environment.

The screenshot shows the Kinser Therapy Manager interface. At the top, there are navigation tabs for 'Home', 'New', 'Edit', and 'Print'. Below this is a search bar and a 'Refresh' button. The main area displays a calendar for the months of February 2015, March 2015, and April 2015. Below the calendar is a table with columns for 'Therapy', 'Therapist', 'Frequency', 'Status', 'Comments', 'Status', and 'Notes'. The table contains several rows of data representing therapy sessions.

Using Contracted Therapists

For some, the thought of using contracted therapists causes concern. Will they be committed to our patients and our agency? Are they skilled, effective clinicians?

We understand these concerns. We do not view ourselves as a staffing firm. We view ourselves as a therapy firm; a firm founded by therapists, for therapists, with therapists in mind. We are highly selective in choosing our clinical staff and use only clinicians with multiple years of experience and proven clinical success. Our therapists have earned a reputation for success and the ability to be independent because of their excellent patient outcomes. First and foremost, we are about great therapists delivering great patient care.

Our Partners

Our founding partners are clinicians. We are a local company, headquartered in Chicago but with technology infrastructure that gives us nationwide reach since our “back of the house” processes are web accessible, server-based and supported by excellent administrators. For you, that means excellent local care supported by the efficiencies and economies of scale of a larger organization - allowing us to give you great care and service at a competitive price.

Ibrahim “Abe” Enab, PT

Founding Partner – Abe brings many years of clinical experience including serving as Rehab Director in hospital and home health settings. As noted by one senior RN, “Abe is well-known in the orthopedic arena and is recognized...as one of the best physical therapists in the Chicagoland area.” Abe’s expertise includes orthopedics and pain management where hands-on mobilization is necessary after injury, disease or surgery.

Jennifer Stec, PT

Founding Partner – Jen has nearly twenty years of clinical experience and has been active in hospital, outpatient and in-home therapy. She is highly regarded for her tireless commitment to patients, her consistent attention to detailed documentation and extensive knowledge of therapies. Jen has a wide breadth of knowledge but specializes in orthopedic and geriatric patients.

Alonso Avina, PT

Partner - Alonso has over fifteen years of clinical experience including over ten years managing an outpatient facility and six years of home health experience. He has worked at RUSH Medical Center, St. Elisabeth’s Hospital and Norwegian American Hospitals in acute care PRN. His areas of clinical expertise include orthopedics, joint replacements, sports medicine, geriatrics, fall prevention training and home safety.
